Projects

Component Cloud | *Nextjs, Prisma, Google Cloud Console, NextAuth, PostgreSQL, supabase*   **13 Oct 2024 − Present**
- A fullstack opensource UI component library made for developers by developers.
- It features a live compiler for user to write their UI code and check in realtime before submitting.
- Uses NextAuth for user authentication, paired with Google Cloud Console for handling the google account logins.
- PostgreSQL Backend is hosted on supabase handled with prisma ORM.

Ingrelicious | *Nextjs, Google Gemini, Shadcn, Tailwindcss, TypeScript*   **30 Dec 2024 − 01 Jan 2025**
- An Gemini wrapper which takes ingredients and outputs recipes.
- It uses shadcn ui components which are customized to match with the applications aesthetics.
- The LLM response is directly displayed in a markdown fashion for some performance boost.

Portfolio Website | *Nextjs, Threejs, Aceternity UI, Tailwind CSS*   **02 Nov 2024 − 11 Nov 2024**
- Created a portfolio website with Nextjs framework, with Aceternity UI components.
- Features Framer Motion and Tailwind CSS focusing heavily on user experience.

Hiku App | *Next.js, Tailwind CSS, daisyUI, Javascript, JWT, Mongo Atlas, Cloudinary*   **22 Sep 2024 − 28 Sep 2024**
- Designed a sample Hiku generating application which uses Cloudinary AI image generation for generating the cards.
- Used Java Web Tokens for user authentication and session handling.
- Used Mongo Atlas for database management and token storage.

Technical Skills

Languages: Python, C++, HTML/CSS, Javascript, Typescript, PHP, SQL, PostgreSQL, MongoDB
Developer Tools: VS Code, Google Cloud Platform, Android Studio, MongoDB Compass, PearAI
Technologies/Frameworks: Linux, React, Next, GitHub

Leadership / Extracurricular

Engineering Today   **12 Sep 2023 − 23 Sep 2023**
Technical Lead   *AISSMS COE*
- Designed and developed a landing page for the esports event organized by the college.
- Got 30% more registration because of the site, also edited the trailer video for the event pitching.
- Hosted the site on render with a custom domain which lead to more outreach(Even got esports orgs participating in the tournaments).
