Aniket Dhakane

Pune, India | 9405699036 | aniketdhakane3@gmail.com | LinkedIn | GitHub | liftw.xyz

Technical Skills

GenAI / LLM: Prompt engineering, tool/function calling, MCP (Model Context Protocol), agent workflows, offline inference (llama.cpp / Ollama), Anthropic Claude, Gemini API, OpenAI API
RAG & Agents: LangChain, LangGraph, vector embeddings, Qdrant, semantic retrieval, agent memory patterns (Mem0), multi-step tool-using agents
Languages: Python, TypeScript, JavaScript, Go, SQL, HTML/CSS
Backend & APIs: FastAPI, Node.js/Express, Next.js API routes, REST, JWT auth, async job patterns, Zod validation
Data & Infra: PostgreSQL, Prisma, MongoDB, Docker, Cloudflare Workers, Vercel, Neon, Azure DevOps, Git
Frontend: React, React Native, Next.js, TypeScript, Tailwind CSS, shadcn/ui

Experience

Jr. Software Engineer Oct 2025 – Present
Zensar Technologies *Pune, Maharashtra*

- Ship production React + TypeScript features in an Nx monorepo microfrontend platform used for enterprise task lifecycle management.
- Own end-to-end UI flows (create, edit, reassign, cancel, close) with validation and shared state – reducing inconsistent table/component patterns via standardized shared modules.
- Partner with product in Agile/Scrum on Azure DevOps (sprint planning, backlog grooming, release tracking) to deliver iterative, production-safe releases.
- Use AI-assisted development tooling (Kiro CLI) to accelerate debugging, codebase navigation, and feature delivery while keeping human review on correctness and security.

Software Engineering Intern Feb 2024 – Apr 2024
XpedioLive Technologies Pvt. Ltd. *Pune, Maharashtra*

- Built customer-facing webpages and REST API integrations with Node.js and SvelteKit aligned to product and CX requirements.
- Implemented Axios-based client/server data flows and test cases to improve reliability of request/response paths.

Projects

Liftw + liftw-mcp | *Next.js, TypeScript, Prisma, PostgreSQL, MCP, Cloudflare Workers* 2025 – Present

- Designed and shipped a production gym platform (auth, workouts, progress analytics, exercise knowledge base) on Next.js + Prisma/Postgres (Vercel + Neon).
- Built MCP tool server (Cloudflare Workers) exposing `get_training_summary`, `coach_brief`, `list_insights`, `publish_insight` for agent clients to ground coaching on live user data.
- Implemented API-key auth, compact context payloads for token-efficient tool results, and write-back of AI insights into a dashboard AI Analysis panel – production agent tool pattern, not demo chat UI.

PersonAI | *Express, TypeScript, MongoDB, Gemini API, JWT, React* Apr 2025 – Jul 2025

- Built a MERN-style "second brain" for saving articles, videos, and notes with JWT-secured REST APIs and a React client.
- Integrated Google Gemini (`gemini-2.5-flash`) to auto-generate concise context/summaries on content ingest – multimodal-ready content pipeline for text links and notes.
- Structured content + generated context for later retrieval/sharing; focused on secure multi-user data isolation and production deploy patterns.

Certifications

Claude Certified Architect – Foundations (CCA-F) Jun 2026 – Dec 2026
Anthropic *ID: h5phb8iwbwrw*

Education

AISSMS College of Engineering Pune, Maharashtra
B.E. in Computer Engineering; 75.55% *2021 – 2025*
